PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript is important for addressing critical plant pathology issues. The manuscript emphasises plant based remedies which align with the growing trend of sustainable agriculture and eco-friendly disease management practices. These provide safer and environmentally acceptable solutions compared to chemical pesticides. The manuscript could stimulate interest in the identification of novel bioactive compounds with applications beyond agriculture such as in pharmaceuticals and food preservation. The findings may contribute to global efforts to combat <i>R. solanacearum</i> in diverse crops, given its economic and agricultural significance.
