

Review Form 3

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_128659
Title of the Manuscript:	EFFECT OF ORGANIC SOURCES OF NUTRIENTS ON YIELD AND ECONOMICS OF BLACK GRAM.
Type of the Article	Research Article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The article is important for Black gram production in organic mode. The research conducted useful to have higher seed yields.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is aptbut can be improved	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is not comprehensive. Rewrite the abstract. It can be shortened.	
Is the manuscript scientifically, correct? Please write here.	Yes.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	If available, refereces may be added	
Is the language/English quality of the article suitable for scholarly communications?	Satisfactory.	
Optional/General comments	The writing language may be improved. I suggest the author for future papers, to depict the soil nutrient analysis after the application of all the treatments and final seed yield results gives much strength to the article. Analysis on how much N , P, K is added by the treatments. This analysis may be correlated with the Seed yield which give robust information (This is only suggestion) Please carry on the comments suggested	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
