PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Enterobacteriaceae are among the most pervasive bacteria globally and are the most commonly identified in clinical consultations. It is unfortunate that these disease-causing germs are now increasingly resistant to the standard antibiotics that are generally used. In order to propose probable therapeutic alternatives, this study focused on evaluating the antibacterial activity of <i>Solanum torvum</i> fruits on a few strains of enterobacteria.
