

Review Form 3

Journal Name:	Archives of Current Research International
Manuscript Number:	Ms_ACRI_128387
Title of the Manuscript:	Advances in safe processing of sugarcane bagasse for the generation of bio-products and biofuels: An overview
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The article contributes to the scientific community by providing detailed information on the viability and value-added opportunities associated with the use of sugar bagasse and sugar leaves.	
Is the title of the article suitable? (If not please suggest an alternative title)	I suggest the title to be rephrased as "Production Process of Sugarcane Bagasse for the Generation of Bio-products and Biofuel: An Overview".	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Though the abstract contains important information on the said topic, it lacks major parameters such as the novelty of the study, the study outcome, and the future applications. Therefore, the article needs to be summarized concisely to highlight its relevance and potential contributions to the body of scientific knowledge.	
Is the manuscript scientifically, correct? Please write here.	The manuscript is scientifically correct	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are archaic and not sufficient for a review paper.	
Is the language/English quality of the article suitable for scholarly communications?	The English quality can be improved by using a third party such as Grammarly.	
Optional/General comments	The article should be considered for publication provided the minor corrections are made.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
