PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This paper immensely contributes to the need to invest resources in schools for quality education. The researcher clearly demonstrates the importance of investing in infrastructure and its contribution to learners academic performance. Its clear that the major stakeholders (Teachers and learners) are aware of this and therefore the onus is on all the stakeholders to come in to ensure each school has the requisite school infrastructure for effective teaching and learning.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is okay as is. Maybe there is need to add Nigeria at the end for those who may not know where Osun State is domiciled.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The following may be considered 1. Include the research questions 2. Have the total population and show how sample size of 150 was achieved. 3. Be clear on what 150 represents, teachers or both teachers and learners. 4. Learners are missing from the abstract yet they appear at the section for the findings of the study. So, how many teachers and how many are the learners? Did teachers and learners use the same questionnaire?	
Is the manuscript scientifically, correct? Please write here.	The manuscript is okay and well written in content and form	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	They are okay, save for one that is beyond 10 years. Used APA referencing and arranged alphabetically	
Is the language/English quality of the article suitable for scholarly communications?	The language is okay and communicative. Avoid personalizing the research (Check use of 'we').	
Optional/General comments	The paper is okay for publication. Let the researcher harmonize the suggestions from the abstract especially the issue of learners, sampling and the note if the questionnaires for learners and teachers were different. NB: Researcher to adhere to the recently accepted way of APA Tables and Figures presentation. The one used is the older version
