

Review Form 3

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_128495
Title of the Manuscript:	A Comprehensive review on Biosimilars; present & future
Type of the Article	Review Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Is the manuscript scientifically, correct? Please write here.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		

Review Form 3

<p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>The review article titled "A Comprehensive Review on Biosimilars: Present & Future" offers a well-rounded and in-depth exploration of biosimilars, highlighting their current applications, challenges, and future potential in the biopharmaceutical sector. Below are some specific commendations:</p> <ol style="list-style-type: none"> 1. Thorough Explanation of Concepts: The review provides a detailed explanation of complex concepts, such as the difference between biologics, biosimilars, and generic drugs. The inclusion of structured comparisons and tables is highly effective in conveying the nuances of these distinctions. 2. Relevance of the Topic: The topic is highly relevant, given the increasing global reliance on biosimilars to make advanced therapies more accessible and affordable. The authors have done an excellent job of contextualizing this within the framework of the growing biopharmaceutical market. 3. Detailed Focus on Challenges: The discussion on regulatory challenges, immunogenicity concerns, and pharmacovigilance for biosimilars is comprehensive. It demonstrates the authors' deep understanding of the complexities involved in the development and approval of these products. 4. 4 Insight into the Indian Market: The specific focus on the biosimilar market in India, including growth projections and regulatory frameworks, adds significant value to the review. This regional focus makes the paper particularly relevant for researchers and industry professionals in developing countries. 5. Clarity in Presentation: The manuscript is logically organized, with clear headings and subheadings that guide readers through various aspects of the topic. The use of tables enhances the readability and provides quick insights into critical comparisons. 6. Future Prospects: The forward-looking perspective, discussing the future trajectory of biosimilars in terms of market growth and technological advancements, is a strong point. It encourages readers to consider the broader implications of this field. 7. Overall, this review is a commendable contribution to the field and provides a solid foundation for understanding the present and future landscape of biosimilars. 	

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
