<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	The impact of rearing the visually and hearing impaired children among parents can figure out the difficulties faced by parents and their coping strategies to overcome those impacts. It helps in planning the various behavioural therapy to parents having differently abled children.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	If "A systematic review" is kept in title it will be easier for other researcher during search of literature.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	It would be better if abstract is written in Introduction, Methodology, Analysis and result and conclusion wise....	
<b>Is the manuscript scientifically, correct? Please write here.</b>	In text citation need to be corrected in many places. Methodology section: Qualitative study included or not is to be made clear because coping strategies can't be obtained from quantitative studies	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	At present, over 34 million children worldwide experience moderate or greater hearing impairment (Anonymous, 2021)...This type of references does not seems good.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Ok
