Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The discovery of new organoselenium compounds with anti-breast cancer activity has significant implications for the scientific community, as it may lead to the development of more effective and targeted therapies for breast cancer patients. This research has the potential to contribute to the understanding of the molecular mechanisms underlying breast cancer and to identify new molecular targets for therapy. Furthermore, the development of novel organoselenium compounds may also provide new leads for the treatment of other types of cancer, making this research highly relevant and impactful for the scientific community.	
Is the title of the article suitable? (If not please suggest an alternative title)	OK	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	OK	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	YES	
Is the language/English quality of the article suitable for scholarly communications?	OK
