## Review Form 3

### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript on agricultural diversification on food security in Kenya is interesting research conducted by the researchers and I really appreciate their efforts in reducing food insecurity and improving smallholder household welfare in Kenya. This manuscript contributes significantly to the scientific community and can be used for future reference.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is too long, and the alternative title should be "Impact of Agricultural Diversification on Food Security in Smallholder Farming Communities of Kilifi South Sub-County, Kenya"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The study's abstract contains many grammatical errors and lacks policy recommendations, which should be improved to make the reading more interesting.	
Is the manuscript scientifically, correct? Please write here.	Yes, the manuscript is scientifically written well.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are insufficient and not recent, the authors used many old references from the first reference to the last one. The recent reference was in 2012 which is unacceptable in research academic. I strongly recommend the authors to quickly update all the references using recent citations. The most popular websites are the Food and Agriculture Organization of the United Nations (FAO), World Bank, and Kenya Statistical Service or Kenya Ministry of Agriculture and Livestock and Fisheries. This is the recent reference for citation #1 <a href="https://thedocs.worldbank.org/en/doc/ba24094c4f9f37714f07345b1505c930-0050062023/original/WDR2024-Concept-Note.pdf">https://thedocs.worldbank.org/en/doc/ba24094c4f9f37714f07345b1505c930-0050062023/original/WDR2024-Concept-Note.pdf</a> 2. <a href="https://thedocs.worldbank.org/en/doc/40ebbf38f5a6b68bfc11e5273e1405d4-0090012022/related/Food-Security-Update-110-November-15-2024v2.pdf">https://thedocs.worldbank.org/en/doc/40ebbf38f5a6b68bfc11e5273e1405d4-0090012022/related/Food-Security-Update-110-November-15-2024v2.pdf</a>	
Is the language/English quality of the article suitable for scholarly communications?	The English language used for the article is suitable for scholarly communication. However, the authors need to improve on grammatical errors detected in the manuscript.	
<u>Optional/General</u> comments	This manuscript requires serious major corrections before accepting for publication in your journal.
