Important Policies Regarding Peer Review

Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Is the manuscript scientifically, correct? Please write here.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		

Review Form 3

<p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>Major Comments</p> <ol style="list-style-type: none"> 1. The abstract needs to be revised thoroughly including the objective, justification, and implication of the study. 2. Lack of rationale for conducting this research as well as objective is missing in the Introduction section. 3. Need to remake the study area map, it is not good to present google map 4. What about volume??? Topic indicates that volume of sound is also measured?? 5. Other noise descriptors can used calculated like NPL, TNI etc 6. Table 1 is not necessary so it can be moved to appendix section. 7. References are not enough, need to put recent references as well 8. Need to add a discussion part. <p>Minor Comments</p> <ol style="list-style-type: none"> 1. Abstract: 4th line is confusing doesn't make sense: A vehicle count done and measured with noise produced revealed low and peak traffic periods and that vehicle flow affects traffic noise. 2. What was the season and year of research???? 3. Specify in which country the research was done. 4. Full stops are missing in many places 5. How was the sound level meter kept above the ground and at which height? 	

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
