Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

**Review Form 3**

**PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Tuberculosis is a global health problem and the prevalence in Bangladesh with more recognition of resistant cases has been a threat to control tuberculosis. On some occasions, extrapulmonary tuberculosis is not identified early because of several factors. Identifying the risk factors associated with the causation of extrapulmonary tuberculosis and thereby its prevention is urgently needed whenever possible. Considering that, this manuscript could play a significant role.	
Is the title of the article suitable? (If not please suggest an alternative title)	The way they define extrapulmonary tuberculosis excluding pleura and thoracic lymph nodes is not appropriate.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract should be short.	
Is the manuscript scientifically, correct? Please write here.	By correctly defining extrapulmonary tuberculosis, they should rewrite.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Sufficient	
Is the language/English quality of the article suitable for scholarly communications?	Some parts should be grammatically rewritten.	
<u>Optional/General</u> comments
