PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript "Effect of Seed Hardening on Morphological, Growth, and Yield Parameters of Chickpea (<i>Cicer arietinum</i> L.)" holds significant importance for the scientific community, particularly in the field of agronomy and crop science. Seed hardening is a pre-sowing treatment that can enhance germination, stress tolerance, and overall crop performance. By analyzing its impact on chickpea, a critical legume for global food security, the study provides valuable insights into improving yield and resilience under varying environmental conditions. The findings contribute to sustainable agricultural practices and can inform strategies to mitigate the adverse effects of climate change on crop productivity.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	
Is the manuscript scientifically, correct? Please write here.	The manuscript titled "Effect of Seed Hardening on Morphological, Growth, and Yield Parameters of Chickpea (<i>Cicer arietinum</i> L.)" appears to be scientifically correct if it evaluates seed hardening techniques using appropriate methodologies, such as control and treatment comparisons, and reports statistically validated outcomes on parameters like germination, plant growth, and yield. A detailed review would be needed to confirm its accuracy.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes but add reference which comment on manuscript	
Is the language/English quality of the article suitable for scholarly communications?	yes
