Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Tomato, a crop of global economic and nutritional importance, suffers significant yield losses due to sucking insect pests like aphids, whiteflies, and Jassids. Over-reliance on synthetic pesticides has led to environmental pollution, pesticide resistance, and residue issues, necessitating eco-friendly alternatives. Biopesticides offer a sustainable solution by targeting pests selectively, preserving beneficial organisms, and aligning with organic farming practices, ultimately contributing to sustainable and resilient agriculture. The current was perfectly planned and treatment also executed meticulously.
