PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript is valuable for the scientific community as it provides comprehensive insights into the role of plant growth regulators (PGRs) in enhancing vegetable crop productivity and stress tolerance. By discussing various PGRs, their physiological mechanisms, and practical applications, this review offers a systematic approach to improving the growth, quality, and resilience of vegetable crops. The research highlights the potential of PGRs as sustainable tools to address challenges such as environmental stress, nutrient deficiencies, and suboptimal agronomic practices. These findings hold promise for advancing agricultural practices, ensuring food security, and promoting sustainable vegetable production in the face of growing global challenges.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title, " <i>Role of Plant Growth Regulators in Improving Vegetable Crop Productivity: A Review</i> ," is appropriate and aligns with the study's scope. No changes are necessary.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract was appropriate and comprehensive.
