

### Review Form 3

Journal Name:	<a href="#">Asian Journal of Geological Research</a>
Manuscript Number:	Ms_AJGER_128153
Title of the Manuscript:	SEDIMENTOLOGICAL CHARACTERISTICS AND DEPOSITIONAL ENVIRONMENT OF ILARO FORMATION, EXPOSED AROUND AJEGUNLE, DAHOMEY BASIN, SOUTHWESTERN NIGERIA
Type of the Article	

#### **PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Is the manuscript scientifically, correct? Please write here.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		

**Review Form 3**

<p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p><b>Optional/General</b> comments</p>	<p>I would like to extend my gratitude to the authors for granting permission for the <a href="#">Asian Journal of Geological Research</a> to review their work entitled "SEDIMENTOLOGICAL CHARACTERISTICS AND DEPOSITIONAL ENVIRONMENT OF ILARO FORMATION, EXPOSED AROUND AJEGUNLE, DAHOMEY BASIN, SOUTHWESTERN NIGERIA" before its publication. After reviewing the manuscript, several concerns are raised, and these questions must be answered before the manuscript can be considered for publication.</p> <p>The following feedback has been taken into consideration:</p> <ul style="list-style-type: none"><li>➤ In the introduction review section, kindly cite Figure 1 and provide a clear image.</li> <li>➤ Provide a location map using GIS or another software program that accurately corresponds with your text in the location and physiography review area. Kindly submit additional maps that you have gathered and examined samples while on the field.</li> <li>➤ The spelling and grammar of English need to be corrected and improved. The authors need to do a more comprehensive literature review and include more recent works in the Manuscripts.</li> <li>➤ Provide a workflow and present the procedures that you followed for the process of investigating the sedimentological characteristics and depositional environment in this area with details to help the readability of the manuscript.</li> <li>➤ In the field investigation review section, the litho-stratigraphic classification of eleven samples should be explained in detail with proper photographs.</li> <li>➤ In the conclusion section, suggest to avoid using reference.</li></ul>
