Journal Name:	Asian Journal of Research in Computer Science
Manuscript Number:	Ms_AJRCOS_127918
Title of the Manuscript:	SIMULATION AND IMPLEMENTATION OF VEHICLE DRIVERS ALCOHOL AND TEMPERATURE MONITORING SYSTEM
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The authors have done a good work by presenting the problem of drunk driving in Nigeria, provides a clear overview of the proposed solution and demonstrates strong technical knowledge through detailed descriptions of materials, methodology, and simulation results, supported by a robust quantitative analysis of alcohol detection performance.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The Abstract is good but with little improvement after all corrections are effected.	
Is the manuscript scientifically, correct? Please write here.	Yes,	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are recent but not sufficient, The author(s) need to improve by providing more reviews of related works to contextualize the study.	
Is the language/English quality of the article suitable for scholarly communications?	The paper could benefit from a more consistent writing style with fewer grammatical errors to enhance readability There are several instances of missing or incorrect articles, prepositions, and conjunctions throughout the paper.	
Optional/General comments	The paper could benefit by clearly stating the research objectives and questions in the introduction. The author(s) mention the use temperature sensor but did not elaborate on the role and significance of the temperature sensor in the system. There is need for comparative analysis of the proposed system and existing solutions to highlight advantages or improvements of the proposed design Discuss implementation challenges, especially in real-world contexts.
