PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript significantly contributes to the scientific community by: 1. Highlighting the socio-economic vulnerabilities of communities dependent on the tea industry in the Dooras region, particularly women workers who face significant challenges due to tea garden closures. 2. Investigating the impact of environmental factors, such as the active Matiali Fan and human-wildlife conflict, on the livelihoods and well-being of the local population. 3. Providing valuable insights into the unique socio-economic structure and livelihood patterns of the Dooras region, which can inform sustainable development strategies and conservation efforts in similar contexts. 4. Emphasizing the need for multi-stakeholder collaborations, including government intervention, women empowerment initiatives, and public-private partnerships, to address the complex challenges facing the Dooras region.	
Is the title of the article suitable? (If not please suggest an alternative title)	The current title might be too broad. A more specific and informative title could be: - "Socio-economic Impacts of Tea Garden Closures and Environmental Changes in the Dooras Region, West Bengal, India" - "Livelihood Diversification and Women's Empowerment in the Face of Environmental and Economic Challenges in the Dooras Region".	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	No	
Is the manuscript scientifically, correct? Please write here.	Based on the manuscript, the manuscript appears to be scientifically sound because it utilizes a combination of primary and secondary data sources, including GIS/RS analysis, to investigate the complex socio-economic and environmental issues in the Dooras region.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes.	
Is the language/English quality of the article suitable for scholarly communications?	The language in the manuscript is generally clear and concise. However, minor grammatical and stylistic improvements might be necessary.	
<u>Optional/General</u> comments	No.
