

Editor's Comment:

The paper is suitable for publication. Minor points:

- (1) The way of reporting the references should be consistent throughout the manuscript: e.g., in "Rationale" section, the authors have numbers [20-22]. Also, the list of references is not in alphabetical order (in particular, those numbered as 21-23)
- (2) The reference "Heer et al., 2021" (underneath Figure 2) should be added in reference list.
- (3) As one reviewer suggested recent references could be added: e.g., "Kumar, S., Kumar, V., & Devi, N. (2024). Digital literacy: a pathway toward empowering rural women. Global Knowledge, Memory and Communication", which is relevant to the topic explored.
