

Review Form 3

Journal Name:	Asian Journal of Advances in Agricultural Research
Manuscript Number:	Ms_AJAAR_128946
Title of the Manuscript:	AP2/ERF transcription factor gene families in crop plant disease responses
Type of the Article	Review Article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript highlights critical advancements in understanding the AP2/ERF transcription factor family's role in regulating crop plant disease resistance. This study is essential for the scientific community as it consolidates a wealth of knowledge, bridging molecular biology with practical applications in agriculture. By focusing on the intersection of biotic stress responses and transcriptional regulation, it offers valuable insights for developing disease-resistant crop varieties, which is vital for addressing global food security challenges. Furthermore, the integration of recent research findings paves the way for innovative approaches in sustainable agriculture and crop improvement strategies.	
Is the title of the article suitable? (If not please suggest an alternative title)	The current title, "AP2/ERF Transcription Factor Gene Families in Crop Plant Disease Responses," is clear and relevant. It reflects the primary focus on the AP2/ERF transcription factors and their role in plant disease resistance. 1. "AP2/ERF Gene Families: Key Regulators of Biotic Stress Responses in Crops"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
