

Review Form 3

Journal Name:	Asian Journal of Environment & Ecology
Manuscript Number:	Ms_AJEE_129195
Title of the Manuscript:	Direction of Utilisation of the Regional Spatial Plan and its Impact on Environmental Change in Pohuwato Regency (Case Study in Buntulia District)
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Research is very important, because it controls government policies related to land use that are not in accordance with the spatial plan of Pohuwato Regency	
Is the title of the article suitable? (If not please suggest an alternative title)	The title should reflect the findings. Based on the abstract, I think that it should be considered to change the title to: Evaluation of the Regional Spatial Plan (RTRW) of Pohuwato Regency (Case Study: Buntulia District)	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract includes at least five aspects, namely (1) introduction, (2) research objectives, (3) methods, (4) research results, and (5) research benefits. These five aspects must be sorted in good sentences. The redaction of the sentence must be different from what has been written in the introductory segment and so on. However, it has the same meaning, so that there is no repetition of sentences in the article.	
Is the manuscript scientifically, correct? Please write here.	In principle, it is true, but there are some parts that must be perfected	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	This research is spatially based, so I recommend citing my writings related to the research. In terms of methods, frameworks and presentation of articles. Review Form 3

<p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Yes, but some parts that need to be fixed</p>	
<p>Optional/General comments</p>	<p>TITLE Evaluation of the Regional Spatial Plan (RTRW) of Pohuwato Regency (Case Study: Buntulia District)</p> <p>ABSTRACT The purpose of the research is written after giving an introduction. The word "Conclusion" should not be written. It is better to write down the results of the research immediately</p> <p>1. INTRODUCTION Add citations to reinforce background statements. In the last paragraph, the purpose of the research is written with a statement, why this research is important</p> <p>2. MATERIAL AND METHOD I propose in this section to be structured as follows:</p> <p>2.1 Study Area In this section, please see an example of an article, how to present a good map. Legends and coordinates must be clearly legible. Explain geographically the location of the research including regional boundaries, community conditions, number of area, number of populations, elevation of the study area. Thus, this can enrich readers' knowledge about the location of the research.</p> <p>Figure 1: Research object OR Study Area</p> <p>2.2 Data Collection The data of this research is the 2013 and 2023 maps. Display the satellite data you are analyzing, explain the source of the data</p> <p>2.3 Theory Present the theory you used in this research</p> <p>2.4 Framework Create a framework, how you conduct research</p> <p>3. RESULTS AND DISCUSSION</p> <p>3.1 Results Write down the results of your research, the geographic data that you convey should be presented in the study area sub-chapter. In table 1. Must be written in English.</p> <p>3.2 Discussion What you write down and the map you present should be included in sub-chapter 3.1 (result). In the discussion section, you should juxtapose your research more with other and related research.</p> <p>4. CONCLUSION (GOOD)</p> <p>5. REFERENCE I recommend using a minimum of 30 article references (update 2014-2024)</p>
