Type of the Article	Review Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	With increasing demand of functional foods and targeted delivery of bioactive compounds, micro and nanoemulsions are emerging trends in the future. So, this review provides insights on the said and needs attention to present the comprehensive and latest information so it must be reproducible and practically applicable.	
Is the title of the article suitable? (If not please suggest an alternative title)	The author presented the title in a very informative way but I think it must not repeat the word "food" twice as given in the title. "Nanoemulsions as Carriers of Bioactive Compounds in Functional Foods : Preparation, and Application in Food " It can be as "Nanoemulsions as Carriers of Bioactive Compounds in Functional Foods: Preparation, and Application"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes abstract section is suitable.	
Is the manuscript scientifically, correct? Please write here.	The author has provided a lot of information but the too-long sentences make it complex and difficult to understand. The splitted information must be presented together to avoid inconvenience.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, but some references at the start of the introduction are very old.	
Is the language/English quality of the article suitable for scholarly communications?	It needs improvement	
<u>Optional/General</u> comments	Needs major focus on the preparatory methods, technologies involved and industries where applicable.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Are there ethical issues in this manuscript?</u>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
