

Review Form 3

Journal Name:	European Journal of Nutrition & Food Safety
Manuscript Number:	Ms_EJNFS_129395
Title of the Manuscript:	Nanoemulsions as Carriers of Bioactive Compounds in Functional Foods: Preparation, and Application in Food
Type of the Article	Review Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Is the manuscript scientifically, correct? Please write here.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		

Review Form 3

<p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>The manuscript titled "Nanoemulsions as Carriers of Bioactive Compounds in Functional Foods: Preparation and Application in Food" has been reviewed</p> <p>But I have some key remarks before it is ready for publication.</p> <ol style="list-style-type: none"> 1. In the keywords, authors should not use words that already exist in the title. <p>Also, some keywords are duplicated</p> <ol style="list-style-type: none"> 2. What is innovative in this article? Please highlight it in the article. 3. The research idea seems interesting, but the stated objectives were not achieved. What is the main significance of the paper compared to related published works? 4. Compare this work with previous similar research in terms of application. 5. Encourage the inclusion of more nanoemulsions in updated food protocols. 6. In the experimental section, authors should list all reagents used, including their purity, supplier, etc. 7. It is suggested that this paper provide more lists, such as preparation methods, advantages and disadvantages of food items. 8. In the concluding part, please add a future perspective as well. 	

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
