Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_129225
Title of the Manuscript:	Exploring silkworm litter as a liquid manure: A key to boosting mulberry growth and productivity.
Type of the Article	Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The concept of the research is very interesting and important from sustainable point of view. The article talks about valorisation of sericulture waste by converting them into nutrient rich liquid manures. However, it lacks scientific rationale.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	I have added some keywords	
Is the manuscript scientifically, correct? Please write here.	Not fully scientific. Need to add many things to make it more scientific. Rationale is missing. Design of experiment, statistical analysis used, method of characterizing the manure and analysing growth and quality parameters are completely missing	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	This article needs major revision. The idea behind the research is innovative but it needs to be more scientific. Plz work on them to enhance its quality for global acceptance
