

Review Form 3

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_128549
Title of the Manuscript:	DESIGN AND CONSTRUCTION OF A DURABLE RECREATIONAL SEAT USING REINFORCED CONCRETE
Type of the Article	Research study

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The contents of this manuscript are related to environmental engineering, water quality, waste management, and sustainable development etc... Overall, the importance of these papers lies in their potential to address pressing environmental challenges, promote sustainable practices, and enhance the quality of life in communities.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Is the manuscript scientifically, correct? Please write here.	Somewhat No Reasons: 1. Here author have used the proportion as 1:3:6 (M10 grade concrete) for the design of seat and got the compressive strength as 15.81 MPa after 7-Days that is practically not possible as per my point of view. 2. As per the title, for durable recreational seat atleast M20 grade Concrete Mix Design is required. 3. For good strength and durability, you need to use any super plasticizer.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
