

Review Form 3

Journal Name:	Journal of Geography, Environment and Earth Science International
Manuscript Number:	Ms_JGEESI_127832
Title of the Manuscript:	PETROGRAPHY AND GEOCHEMISTRY OF DOLERITE DYKES FROM CRETACEOUS BAMWA HALF GRABEN (NORTH CAMEROON, CENTRAL AFRICA)
Type of the Article	

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Comments

	<p>Reviewer's comment:</p> <p>The MS is deserving to be published after minor revision in order to obtain broader interest. The following points have to be taken into account:</p> <ul style="list-style-type: none"> • The authors need to clearly state the goals and purpose of this MS. • Petrographic photomicrograph (Figure 3) should be clearer. • The coordinates system of Bamwa basin dykes should be determine. • It is recommended that the authors carefully proofread the MS to ensure the language is accurate, avoiding grammatical errors and typos. 	<p>Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</p>	<p>This article examines the petrography and geochemical analyses of dolerite dykes from cretaceous Bamwa half grabben of North Cameroon in Central Africa. It introduces contribute to sort out the geodynamic implications of Bamwa dolerites trough their petrography and geochemistry features. Anyway, this article has been performed using multiple analytical methods, such as microscopic and geochemical examinations.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>The title of the article is suitable.</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>The abstract of the article is good.</p>	
<p>Is the manuscript scientifically, correct? Please write here.</p>		
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>		
<p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p><u>Optional/General</u> comments</p>		

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
