### Review Form 3

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This is important as this will bring revolution in the coconut cultivation. Variety which is good in water quality and coconut flesh should be used for cultivation in order to get high yield. This will help in coconut cultivation and the farmers will get new yield .	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes the title of the article is very appropriate and it properly matches with the context written in the article.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes the abstract written is comprehensive .I have a suggestion that proper spacing should be there in the article so that it can be read properly ,spacing is missing in the article which result in merging of two or three words making them difficult to read.	
Is the manuscript scientifically, correct? Please write here.	Yes, this manuscript is scientifically correct.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes the references mentioned in the manuscript are sufficient enough.	
Is the language/English quality of the article suitable for scholarly communications?	Yes the language i.e English is of good quality only problem is presence of spacing between the words which is making difficulty in reading.	
<u>Optional/General</u> comments	<p><b>Make corrections- Spacing should be proper between words so that it can be read properly.</b></p> <p>This is a good article which can actually bring boom in the coconut cultivation. Farmers can actually comply with this study and can choose what to plant after referring the table which is mentioned in the article . Coconut plantation having high yield of water can be chosen by the coconut water industry for high yield .</p>	

#### PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
