Peer review Comments Approval Policy: <https://r1-reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1-reviewerhub.org/benefits-for-reviewers>

## Review Form 3

### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The case report is important to bring information about a rare disease to the general population. A progressive degenerative muscular disease should be treated in a multidisciplinary manner.	
Is the title of the article suitable? (If not please suggest an alternative title)	Perhaps the word rare is too much. Cardiac alteration is evidenced in the last stages of disease progression, and neurological alterations, patients with chronic diseases are followed by psychologists in multidisciplinary centers.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Perhaps including the incidence of the disease in your country and worldwide would be interesting.	
Are subsections and structure of the manuscript appropriate?	The image is a little bad.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Pay attention to the title; include information about the incidence of the disease in the country and in the world; a better image; include advanced therapies in the treatment of DMD.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	I don't know the format for including references, but it should include the year to know if it is current.	
<b>Minor</b> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	yes	
<b>Optional/General</b> comments		

### PART 2:

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
