

Review Form 3

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_127976
Title of the Manuscript:	Influence of Soil Series and Potassium Levels on Quality Parameters of Sweet Corn in Soils of Konkan, Maharashtra (India)
Type of the Article	Original Research Article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript entitled "Influence of Soil Series and Potassium Levels on Quality Parameters of Sweet Corn in Soils of Konkan, Maharashtra (India)" studies effect of various soils and potassium on the quality of sweet corn which would certainly benefit the researchers of maharashtra and other areas.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes. suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It would be better if per pot dose of fertilizer was given instead of hectare.	
Is the manuscript scientifically, correct? Please write here.	Correct.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes 2-3 more references in introduction and discussion	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments	What was the nutrient status of the different soils, especially potassium? Pictures of the experiment and a cumulative bargraph with various traits will give a better representation of the study.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
