

Review Form 3

Journal Name:	Journal of Agriculture and Ecology Research International
Manuscript Number:	Ms_JAERI_128546
Title of the Manuscript:	Effect of weather parameters on incidence of leaf miner (<i>Lirimomyza trifolii</i> Burgess) infesting tomato (<i>Solanum lycopersicum</i> L.)
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Is the manuscript scientifically, correct? Please write here.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		

Review Form 3

<p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p><u>Optional/General</u> comments</p>	<p>Reviewer Comments:</p> <p>Abstract</p> <ol style="list-style-type: none"> 1) Do you use same word Rabi in everywhere (Abstract section) 2) Add key word keyword: Meteorological parameters <p>Introduction</p> <ol style="list-style-type: none"> 1) What is the threshold level of <i>L. trifolii</i> infestation that triggers substantial yield losses? 2) How can early warning systems be developed to detect and manage infestations before economic thresholds are reached? 3) How many years seasonal data required for framing the forecasting model? <p>Material and methods</p> <ol style="list-style-type: none"> 1) The tomato cultivar <i>Konkan Vijay</i> is resistant or Susceptible variety? 2) Which experimental design used in this experiment? 3) How many replications you maintained? 4) You did not mentioned about the sowing date? At what stage you initiate the recording the infestation of leaf minor? <p>Result and discussion</p> <ol style="list-style-type: none"> 1) Was there any consideration of other biotic factors, such as natural enemies, predators, or alternate host plants, that might have influenced leaf miner populations during the study? 2) Correlation studies, that gives the correlation of weather parameter with the leaf minor infestation, what about multiple linear regression gives? 3) In tomato leaf miner whether it is seasonal pest or regular pest, Do mention in introduction or result part 	

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
