**PART 1: Comments**

	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	Soybean is an important source of food, utilized globally for a healthy diet due to its high contents of iso-flavonoids and folic acid, protein and oil, and hence more research is essential on various aspects to increase its yield under different conditions, including stresses, nutrient sources and their management.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	In materials and method section title is written as "Influence of organic and inorganic nutrient sources on growth, yield and economics of soybean ( <i>Glycine max</i> L)" <b>but different on manuscript top. Which one is final??</b> Economics was not calculated in manuscript, why use this word?	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	In the abstract section author has mention "functional leaves" please elaborate, is it means all the leaves on plant or some specific leaves? Write full name once then use SVIAG, SVVV. Indore	
<b>Is the manuscript scientifically, correct? Please write here.</b>	Author has considered data of only single year i.e. Rabi 2023, results could be more reliable if the data was taken for consecutive years bcz in field so many other factors may also contribute either positively or negatively. if possible please consider it. Your experimental soil was Vertisol, which are a group of heavy-textured soils, are they suitable for soybean cultivation? Well drained, aerated, loam textured soils are good for soybean.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	References in Introduction section are old, please add recent ones.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	<b>Growth Studies para 3, line 1</b> "The increase in dry matter with 75 % RDF + 25 % RDN through vermicompost was mainly due to its matter" is not understandable. language must improve.	
<b>Optional/General</b> comments	<b>After suggested changes and improvements manuscript is recommended.</b>
