Very important to the scientific community to know the emerging technologies which are suitable to grow sustainable crops to meet the food security.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Article is scientifically robust, because in the current scenario, climate smart technology is necessary. But in this article didn't explained about how to implement and make it commercial to reach local farmers to face adverse climatic conditions.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Need to add many references. Plenty of information has collected from single literature, so that not fine for robust article.
