

## SDI FINAL EVALUATION FORM 1.1

### PART 1:

Journal Name:	<a href="#">Asian Journal of Case Reports in Surgery</a>
Manuscript Number:	Ms_AJCRS_128410
Title of the Manuscript:	Huge Mesenteric Cystic Lymphangioma Presenting With Small Bowel Volvulus in a 3-Year-Old Child
Type of Article :	Case report

### PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Although the authors have corrected the title of the manuscript, the manuscript has remained almost the same and underlined volvulus as a complication of lymphangioma, which might not be the case as I mentioned in the previous review. No mention of intestinal malrotation was added and discussed in the manuscript. In this case, open surgery was performed and no discussion about the laparoscopic approach and its advantages was done but there are conclusions about that, which are not appropriate	

### PART 3: Objective Evaluation:

Guideline	MARKS for this REVISED manuscript
Give OVERALL MARKS you want to give to this REVISED manuscript ( Highest: 10 Lowest: 0 )  <b>Guideline:</b> Accept (8-10) Revision required: (4-8) Rejected: (0-4)	7
