

Review Form 3

Journal Name:	Asian Journal of Fisheries and Aquatic Research
Manuscript Number:	Ms_AJFAR_128554
Title of the Manuscript:	A Comprehensive Study on the Breeding and Feeding Behaviour of Estuarine Rice Fish, <i>Oryzias melastigma</i> (McClelland, 1839)
Type of the Article	

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The study provides insights into the breeding and growing/feeding behaviour of Estuarine Rice Fish, <i>Oryzias melastigma</i> . Pest management techniques are also included in the study. It also looks into the various ways in which fish farming can be enhanced are also analysed	
Is the title of the article suitable? (If not please suggest an alternative title)	The title can be changed to: An Empirical Analysis on the Breeding and Feeding Behaviour of Estuarine Rice Fish	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is OK	
Is the manuscript scientifically, correct? Please write here.	Modifications required: 1. There is no separate paragraph that sums up the finding from the experiments. This is very important since it is clearly stated that the study is based on experimental evidence 2. The secondary data may be grouped separately 3. The finding from the experiments must supplement the secondary data 4. In the conclusion section the finding and suggestions from the experiments conducted should be highlighted	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	More references to be included. This can be included from research papers published in authentic journals related to AQUATIC BIOLOGY and FISHERIES	
Is the language/English quality of the article suitable for scholarly communications?	It is ok	
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
