### Review Form 3

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	This paper makes a significant contribution, especially in the field of theoretical phonology, as it challenges the existing claims and theories. It presents a problem that has not been discussed broadly, which is the existence of vowels with a size of more than two moras. The paper also contributes to language preservation by using EkeGusii, a Kenyan Bantu language, as research material.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	Yes	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	Please include the research findings in the abstract (such as how vowel lengthening can indicate different degrees of adjectives and how contextual parameters influence the process).	
<b>Is the manuscript scientifically, correct? Please write here.</b>	Yes.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	Yes.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Yes.	
<b>Optional/General</b> comments	The paper does indicate the existence of vowel lengthening in EkeGusii. However, since the previous claims and theories failed to address the problem, perhaps the author could propose a possible solution.  <b>PLEASE SEE ATTACHMENT</b>
