Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

### Review Form 3

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	This manuscript contributes significantly to the understanding of shifting cultivation, particularly the jhum system, in Northeast India. It balances traditional ecological knowledge and modern perspectives, providing insights into sustainable land-use practices and biodiversity conservation. By addressing the socio-economic and environmental challenges, it offers a nuanced approach to integrating indigenous practices with developmental needs, making it relevant for policymakers, conservationists, and researchers.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The title, "Reevaluating Shifting Cultivation in Northeast India: Balancing Traditional Practices, Sustainability, and Development," is suitable as it encapsulates the main themes of the manuscript.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract is comprehensive.	
<b>Is the manuscript scientifically, correct? Please write here.</b>	The manuscript appears to be scientifically accurate, supported by extensive references to recent and historical studies. It effectively synthesizes qualitative and secondary data to provide a well-rounded analysis of shifting cultivation.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	References are sufficient and recent	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	The language is generally clear and scholarly, though minor grammatical refinements could enhance readability. For example, simplifying some long sentences and avoiding redundancy will improve the flow.	
<b>Optional/General</b> comments		

#### PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
