#### **Important Policies Regarding Peer Review**

Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

**Review Form 3**

**PART 1: Comments**

	<b>Reviewer's comment</b>	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>		
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>		
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>		
<b>Is the manuscript scientifically, correct? Please write here.</b>		
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>		

**Review Form 3**

<p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p><b>Optional/General</b> comments</p>	<p><b>A REVIEW ON CHANDIPURA VIRUS: OUTBREAKS AND EMERGING INFECTIOUS DISEASE FOR CHILDREN IN INDIA</b></p> <p>Your work provides a clear and concise overview of Chandipura virus, its impact, diagnosis, treatment, and preventive measures. Here are some review comments for improvement:</p> <ol style="list-style-type: none"> <li>1. The flow is logical, but the transition between sections (symptoms, diagnosis, treatment, prevention) could be smoother. Adding connecting phrases would enhance readability.</li> <li>2. Write clearly in the affected areas.</li> <li>3. The term "Chandipur disease" seems interchangeable with "Chandipura virus infection." Ensure consistency to avoid confusion.</li> <li>4. Highlighting the disease's rapid progression and public health implications upfront could better engage readers.</li> <li>5. Strengthen the section by emphasizing the importance of community education and sandfly vector control.</li> <li>6. Replace "constitute" with "poses" for smoother phrasing in "constitute a major public health problem."</li> <li>7. Well-organized with actionable strategies. Consider elaborating on the role of partnerships with NGOs and international health organizations for broader impact. Strengthen the section on media collaboration by highlighting the importance of combating misinformation.</li> <li>8. Comprehensive coverage of key challenges. Ensure consistent terminology when discussing vector control (e.g., mention "sandflies" instead of "mosquitoes" where relevant).</li> <li>9. Strong conclusion emphasizing a multi-pronged approach. Highlight the importance of integrating traditional and modern vector control methods in endemic regions. Mention the potential for public-private partnerships to accelerate vaccine and treatment research.</li> <li>10. Ensure consistent formatting and language tone throughout (e.g., use parallel structures).</li> <li>11. Incorporate references or credible sources for key points if this will be part of a publication or formal document.</li> <li>12. Add a concluding statement to tie together the importance of integrated efforts in diagnosis, treatment, and prevention.</li> <li>13. Check all references and rewrite all these in same format.</li> </ol>	

**PART 2:**

	<p><b>Reviewer's comment</b></p>	<p><b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
