Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	<ol style="list-style-type: none"> 1. Bone regenerative medicine demands novel methods to overcome its shortcomings. 2. Photobiomodulation (PBM) is used to improve healing progression, tissue rejuvenation, and decreasing pain and inflammation. 3. The Importance of low level laser therapy in dentistry. 	
Is the title of the article suitable? (If not please suggest an alternative title)	The effect of photobiomodulation on bone graft repair in a Bariatric Surgery Patient: Case Report.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is very concise and the reader will not understand how the case was managed unless he/she go throughout the article. I think more elaboration about the presented case need to be added to abstract describing the case what have done briefly.	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Good but if more can be added to the discussion if the current on not addressing the sections that need tio be added	
Is the language/English quality of the article suitable for scholarly communications?	No the English quality needs some proofreading and more improvement	
<u>Optional/General</u> comments	More explanation need to be clarified specifically in the discussion section explaining the exact effect of photobiomodulation on the bone graft (example accelerating the synthesis of bone matrix due to the increased vascularization and lower inflammatory response, with significant increase of osteocytes in the irradiated bone. Considering its properties, beneficial effects and clinical relevance)	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
