Important Policies Regarding Peer Review

Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript is of great significance to the scientific community. Hence, it emphasis on anxiety, its causes, and effects on the academic performance of students if not addressed.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the manuscript is well suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of this article is very comprehensive. But has grammar issues. Author must re-write/revise it.	
Is the manuscript scientifically, correct? Please write here.	The manuscript is scientifically correct, robust, and technically sound with good significance. The topics is well supported by the subsections and structure are compact, sequential, and logical. Overall, the paper is good.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	I detected in-text citations that does not match any source in your reference list, and majority are not in the reference list, incorrect or misspelled authors, incorrect publication date, and incorrect use of "et al." The references are not sufficient and most of them are not recent. Author must thoroughly check the references, and citations. Author must add more recent references and update those below 2015. Finally, author is advised to adapt the reports, in his manuscript. (See Reference Report) References report WHO* (2019). Adolescent health - SEARO. Who.int.
