Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The subject of the article is interesting. Artificial intelligence /AI/ has been progressing rapidly and it shows no signs of slowing down. AI encompasses almost everything. There are numerous benefits of using AI in economy, especially in low-income countries. However, the topic of AI is hot and there are a lot of debates about its advantages and disadvantages.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	In my opinion it could include some summary of readiness criteria, suggested by the author /s/.	
Is the manuscript scientifically, correct? Please write here.	In general, yes. In my opinion some topics could be added in the first part of the manuscript. For example: benefits of AI, how it contributes to the society/ economy; types of AI, which type the manuscript focuses on; AI in healthcare, AI technologies in nursing, automation, if there are any language issues, AI tools, which are suitable. If possible, to add examples of AI in nursing /as case study/ in developed/ developing countries, what are the factors for success to implement Ai If success depends of factors such as ownership in healthcare, management, etc.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	yes	
Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments	See above
