PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Salmonella is a serious foodborne pathogen responsible for causing severe infections. It is a major cause of huge economic losses due to mortality and production decline in the poultry industry worldwide. The high bacterial load in poultry meat and its resistance to antibiotics have led to potential health problems. Antibiotic resistance in bacteria, including Salmonella, is a major concern for food safety, and the spread of resistant strains along the food chain must be addressed for the sake of veterinary medicine and public health.
