

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_124122
Title of the Manuscript:	Assessment of sensory and nutritional attributes of finger millet-based traditional food products of Assam
Type of the Article	Original Research Article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript on the "Assessment of Sensory and Nutritional Attributes of Finger Millet-Based Traditional Food Products of Assam" holds significant importance for the scientific community. It offers valuable insights into the nutritional potential of indigenous millet-based foods, which are often overlooked in mainstream research. By evaluating both the sensory and nutritional profiles, this study highlights the cultural relevance and health benefits of traditional foods, fostering interest in millet consumption as a sustainable solution for combating malnutrition and promoting food security. Additionally, it contributes to the preservation and promotion of traditional knowledge and culinary heritage, which is vital for rural livelihoods and local economies.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes Suggested alternative title in reviewer manuscript copy	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes Correction required and mentioned in the reviewer manuscript copy	
Are subsections and structure of the manuscript appropriate?	Yes appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	It addresses important aspects such as sensory evaluation and nutritional profiling, which are critical for understanding consumer acceptance and health benefits of finger millet-based foods. Sensory analysis is essential for assessing taste, texture, and overall appeal, while nutritional evaluation offers insights into the macro- and micronutrient content. Together, these aspects contribute to the comprehensive understanding of the potential of finger millet as a nutritious and culturally relevant food in Assam. Further, finger millet's well-documented health benefits, such as its high fiber, calcium, and antioxidant content, lend scientific credibility to the nutritional analysis.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes Sufficient Some corrections needed in the reference please check reviewer manuscript copy	
Minor REVISION comments	Minor revision required in the English	
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
