

Review Form 3

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_129517
Title of the Manuscript:	Impact of Improved Crop Management Practices in Rabi Groundnut through Frontline Demonstrations in Nagarkurnool District
Type of the Article	Research

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	It is relevant to the journal. Authors have provided new insight into the Topic with experimental results. It is surprising to see that, chemical inputs have reduced the cost of cultivation than the traditional farming.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes it is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is precise, provide abbreviations in the right place , for eg : ICM	
Is the manuscript scientifically, correct? Please write here.	Yes it is , however try to include more published data in to the article. Such as area, yield and production of groundnuts. Kindly add the pressing issues concerning the study region and provide a study area map. Major facts of the study area such as it is the most vulnerable districts in the study with respect to climate change	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, kindly add one or two not so latest literatures on ground nut production in the state.	
Is the language/English quality of the article suitable for scholarly communications?	It has to be checked throughout. In many places, capital letters are used unnecessarily and grammatical errors also needs to be corrected.	
<u>Optional/General</u> comments	<p>Article needs to be improved in order to be published.</p> <p>Authors must include more published data and study area map in to the article. Such as area, yield and production of groundnuts published by state department of agriculture statistics to make it more reliable. The graphs can be used to make the generated data visually better explanatory. In many places, capital letters are used unnecessarily and grammatical errors also needs to be corrected throughout the article. Conclusion can be improved</p>
