

Editor's Comment:

Since out of three, two reviewers recommended major revision in the manuscript, I suggest you to send the revised manuscript along with authors' responses to the reviewers who recommended major revision for their final comments/recommendation on the revised manuscript.

If reviewers recommend acceptance of the revised manuscript, then revised manuscript may be accepted for publication (either directly or after the recommendation of an academic editor).

Editor's Details:

Prof. Anil Kumar
Head (Retired), School of Biotechnology, Devi Ahilya University, India.
