#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript should be rewritten. The title of the manuscript is too plain and sounds like a book chapter. The abstract has references which should not be present. There is no discussion or interpretation of the results obtained. The authors should revise the entire manuscript.	
Is the title of the article suitable? (If not please suggest an alternative title)	It should be renamed again. Like for example 'An analysis of the biophysical field impacts on liquid model systems'.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract should not have references. It is not written in proper manner, results should be explained in two sentences and the starting line should be an introduction of topic in two sentences.	
Is the manuscript scientifically, correct? Please write here.	The manuscript has content but should be rewritten in a proper method again or else it cannot be considered for publication.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	More references should be added. The discussion or interpretation of results should be given.	
Is the language/English quality of the article suitable for scholarly communications?	The manuscript should be revised thoroughly for grammatical errors.	
<u>Optional/General</u> comments
