Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The diversity studies are very well done as a standard research part in our course. The trait inter-relation and their association is very well explained by this correlation and path analysis studies. Groundnut is a major oilseed crop of India and a lot of research work needs to be done on that. This research will provide a good idea about the characters of some cultivars of groundnut.
