Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

### Review Form 3

#### PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Nigella Sativa Seeds is a plant that has been produced for centuries and used in many areas. In recent years, due to reasons such as the development of resistance to antibiotics and the inadequacy of antiviral drugs, herbal treatment methods have increased in popularity. One of the herbal treatment methods is Nigella Sativa. Nigella Sativa Seeds and compounds obtained from Nigella Sativa Seeds are used as therapeutic and prophylactic in many areas. In this review, detailed information has been given about the importance of Nigella Sativa Seeds, the countries where it is grown, its chemical components, different extraction methods and its use in medicine. The academic language of the review is good, but it would be beneficial to benefit from more sources.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is representative of the article and is sufficiently comprehensive.	
Is the manuscript scientifically, correct? Please write here.	When the article was examined from a scientific perspective, no deficiencies or errors were found. However, some information was given without reference. These should be corrected.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	<p>There are many studies in the literature about black cummin. The number of sources can be increased.</p> <p>For this purpose, the following articles can be used.</p> <p>1: ayaş, R. A. R. Nutritional content, vitamin, mineral, fatty acid and amino acid composition of black cummin grown in different regions. (The average nutritional content of black cummin and the places where it is grown can be used.)</p> <p>2: Hannan, M. A., Rahman, M. A., Sohag, A. A. M., Uddin, M. J., Dash, R., Sikder, M. H., Rahman, M. S., Timalisina, B., Munni, Y. A., &amp; Sarker, P.P. (2021). Black cummin (Nigella sativa L.): A comprehensive review on phytochemistry, health benefits, molecular pharmacology, and safety. <i>Nutrients</i>, 13(6), 1784 (a comprehensive review of the medical use of black cummin.)</p> <p>Generally, the references are up to date.</p>	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments		

#### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
