Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The attempt by the researchers to improve the nutrients content of laddonà local food commodity is a step in the right direction and also doing that with the by-product of the oli meal industry is commendable, however more information on laddo being a local food commodity needs to be provided since the Manuscript is intended for the international scientific community. For instance what is laddo, what ingredients are used, what are the nutrients deficiency that is inherent that the addition of the oil seed meals will address	
Is the title of the article suitable? (If not please suggest an alternative title)	The Title is adequate	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive	
Is the manuscript scientifically, correct? Please write here.	The Manuscript is Scientifically correct as the research seems to improve the nutrients composition and acceptability of a local food commodity	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are adequate since little information is available on laddo	
Is the language/English quality of the article suitable for scholarly communications?	The language is suitable	
Optional/General comments	Not minding the paucity of literature information on laddo. The author in discussing the results ought to have corroborated his findings with that of other workers who utilized oil seed meals to enhance the nutrients composition of other food commodity. This was not done and it's a minus for the research	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
