Title of the Manuscript:	EFFECT OF DIFFERET ORGANIC NUTRIENT SOURCES ON THE GROWTH AND YIELD OF RADISH
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The importance of any fruit vegetable cannot be over-emphasized, hence any research work that can lead to the increase production should be encouraged. Soil health should also be taken seriously, as such probing into the use of organic sources of nutrient especially combining various sources makes the research work worthwhile. The use of chemical fertilizer has brought a little digression from the main objective and hence the product may not be regarded as totally organic in my own view.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is okay in terms of number of words and concise explanation but should have included the use of chemical fertilizer and why it was use, since the opening statement was about the derogatory effect of chemical fertilizer. The importance of Radish should be highlighted.	
Is the manuscript scientifically, correct? Please write here.	The manuscript is scientifically, correct	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient, provided the mentioned ones are all cited. Few are too old e.g Kitamura 1958	
Is the language/English quality of the article suitable for scholarly communications?	Yes, but Poush 2079 to Magh 2079 should be translated to English	
<u>Optional/General</u> comments	The article is suitable, provided notable areas of correction are effected. The importance (nutrition and economy) of Radish should be highlighted in the abstract and introduction.	

Comment [DHAA1]: English calendar date may be necessary
