JournalName:	JournalofEngineeringResearchandReports
ManuscriptNumber:	Ms_JERR_129347
TitleoftheManuscript:	DevelopmentofModelsforthePredictionofMechanicalPropertiesofConcreteusingBidaNaturalStonesasCoarseAggregate
TypeoftheArticle	OriginalResearchArticle

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Concrete development and finding its properties in fresh and hardened stages using waste materials is an innovative technique in the field of sustainable concrete technology.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is good. But yellow colour shaded words need correction and to avoid repetitions	
Is the manuscript scientifically correct? Please write here.	Yes, manuscript is good scientifically.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References can be added around twenty including the waste materials used in the previous studies.	
Is the language/English quality of the article suitable for scholarly communications?	Good.	
Optional/General comments	The manuscript may be considered for publication after the minor updates.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, kindly please write down the ethical issues here in details)</i>
