	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This study maybe helpful in adding knowledge regarding Mirizzi's syndrome. However, the manuscript, in its current form, needs further refinement to add significant value to the scientific knowledge related to the disease. Furthermore, the article can be elaborated by consulting additional sources.	
Is the title of the article suitable? (If not please suggest an alternative title)	In my opinion, the title is not suitable. Suggestive title can be: Current trends on diagnosis and management of Mirizzi's syndrome: A Review	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive. However, the language needs refinement.	
Is the manuscript scientifically, correct? Please write here.	Although the article is technically sound, the manuscript can be more descriptive. The methodology section can be separated from the introduction and the discussion section can be more elaborate. In brief, the manuscript needs to be refined as far as it's scientific knowledge is concerned.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Some references are recent. However, references from the past 4-5 years may be helpful.	
Is the language/English quality of the article suitable for scholarly communications?	No.
